

Guide to Implementing the Whole Body Vibration Machine

Take these **STEPS** to realize the benefits of whole body vibration therapy in your practice

1. Purchase a whole body vibration machine. Want to make a good purchase? You can find the machine we use in our blog, *The synergistic benefits of whole body vibration therapy and non-invasive body contouring*
2. Add to or rewrite your educational material to include vibration therapy
 - Consultation paperwork
 - Pre-treatment informational paperwork
 - Post-treatment instructions
 - Consent form
 - Treatment form
3. Include whole body vibration therapy on your website
4. Educate your team about whole body vibration therapy
5. Add whole body vibration therapy to all of your non-invasive body contouring treatment protocols as a post-treatment educational component
6. Create a series of non-invasive body contouring post-treatment educational emails to include whole body vibration therapy (we have included our vibration therapy email reminder as a FREE download in our website, in the Freebies dropdown under our Solutions tab)
7. Include reminders for vibration therapy in your follow up call scripts
8. Ready to start? Use our Walk-In Patient Protocol for the Vibration Machine. Available on our website, Freebies section, under the Solutions tab
